

Charter Schools and BTSA funding

All charter schools participating in the Charter School Block Grant (E.C. 47634), locally or direct funded, are not eligible for additional per teacher BTSA funding. Locally funded charters receive funding from the sponsoring school district or county office of education. Direct funded charters receive funding directly from the California Department of Education. But both types of charters receive funding from the Charter School Block Grant.

Below are the ONLY charters that are eligible for BTSA funding. These schools are NOT funded through the Charter School Block Grant, instead they are funded through the revenue limit. The below list is effective for Fiscal Year 2005-06 only.

County Office of Education	Charter School
El Dorado Co. Office of Education	Charter Community and Extended Day
El Dorado Co. Office of Education	Charter Rite of Passage School
El Dorado Co. Office of Education	Charter Transitional Reporting Educational Center I
